Malleable Iron Washers

Malleable cast iron round washers are used in dock and wood construction. These oversized washers have a large bearing surface designed to prevent bolt heads and nuts from pulling into the wood.

Stock

Diameters: 3/8" - 1"

Origin: Domestic (no keyhole) and Import (keyhole)

Finish: Black and hot-dip galvanized

Dimensions

Bolt Size	A	T	Weight In Pounds Per 100 Pieces
	Outside Diameter	Thickness Gauge	
3/8	2-1/2	1/4	18
1/2	2-1/2	1/4	22
5/8	2-3/4	5/16	32
3/4	3	7/16	42
7/8	3-1/2	7/16	55
1	3-3/4	1/2	63
1-1/8	4-1/2	1/2	96
1-1/4	5	9/16	121
1-1/2	6	3/4	187

[Details](#)

SA

Tim and Ron,

These are the Bridge washers that I thought would be nice to use, since they are a little more "Telluride Mining Style" looking...

I used them on another project. We can paint all steel on the interior and let all steel rust on the exterior.

Just thought I'd send this along for next year. They would go everywhere we have exposed bolts.

Ron and team, does this make sense, and sound good?

Thank you,
Shawn
