Details

The Juno Lighting Low Voltage IC Housing is a 4" recessed can that can be completely covered with insulation. Features Juno's Air-Loc sealed design that stops infiltration and exfiltration of air and reduces heating and cooling costs. Can be completely covered with insulation.

Since 1976, Juno Lighting has been "lighting the way" with award-winning recessed and track lighting. Juno established its reputation with the Trac-Master track lighting system and grew from there. Today, the Juno Lighting Group is comprised of seven industry leading brands, including Juno, Aculux and Alfa.

The 4" Low Voltage IC Housing is available with the following:
